ACCESS CONTROL

PASSPORT SCANNING **AT NO ADDITIONAL COST**

When a visitor requests access to an estate, a South Africa ID or Driver's Licence card is normally provided to grant the required access. However, in some instances, visitors only have a Passport document for identification purposes.

The latest Openitem update allows for visitor's to scan their identity via their passports without any additional cost. This feature is now built in to the dashboard functionality and the need for SD Cards or local data saving is no longer required.

BENEFITS AND FEATURES

- **No SD Card** or local saving device required
- **No additional Cost**
- Seamless integration with **current hardware**
- No extra setup or infrastructure upgrades required
