SHORT TERM RENTALS WITH FACE ID ACCESS CONTROL

Our **SHORT-TERM RENTAL** workflow function is now available to assist check-in points with easy, quick, safe and reliable control of visitors and access points. The prospective visitor pre-registers by entering their ID nr and name. On arrival, their facial is matched and with a quick scan, gains access to the respective estate or park.

NO MORE FINGERPRINT ENROLMENT.

This accurate capturing of the visitor's profile saves time on the registration process and relieves stress and prevents check-in congestion at the various welcome centres.
